-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2627

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 7 are each indefinite on line 2 because there is no clear antecedent basis for "the front side".

Claims 1 and 7 are each indefinite on line 12 because there is no positive antecedent basis for "the optical pickups" (plural). It appears that the claim language of "the optical pickups" should actually be "the optical discs".

Claims 1 and 7 are indefinite on lines 22-23 and on line 19, respectively, because there is no positive antecedent basis for "the small-diameter optical lens". It appears that the claim language of "the small-diameter optical lens" should actually be "the small-diameter optical disc".

Claims 7 and 8 are each indefinite because the claims recite "a method of controlling a disc drive", but includes no steps for carrying out that method. There are only structural elements claimed in the method claims with no steps claimed for carrying out a method.

Claims 1-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Any inquiry concerning this communication should be directed to Paul Huber at telephone number 571-272-7588.
